

CIVIL ENGINEERING

ENVIRONMENTAL ENGINEERING (PART-I & II)

CONTENTS

WATER SUPPLY ENGINEERING

1. Water Demand, Its Source & Conveyance 1 – 50
2. Quality Parameters of Water 51 – 83
3. Treatment of Water 84 – 158
4. Distribution System 159 – 181

WASTE WATER ENGINEERING

5. Waste Water Characteristics 182 – 198
6. Biochemical Reaction in Treatment of Waste Water 199 – 203
7. Disposal of Sewage Effluent 204 – 222
8. Design of Sewerage System and Sewer Appurtenances 223 – 255
9. Sewage Treatment 256 – 340
10. Solid Waste Management 341 – 354
11. Air Pollution 355 – 390
12. Noise Pollution 391 – 398
